Hi Rob,

Just wanted to follow up to see if the first 22MB file can be broken into two files. Another option would be to send a disk, although we have not had great luck with that approach! Let me know what you think is best. Thanks, David

David:

First sent was 22 MB. It looks like that may exceed your limit. I will see what we can do. In addition, please find attached the spreadsheet with the rough timelines we provided at our last meeting. I hope this meets your needs.

Thanks,

Rob

Hi Rob,

If you sent three messages, I got the second and third but not the first. We do have a limit (I think 25MB) on size of files that our email system will accept. It may be that the first one will need to be separated if it is more than 25MB. Sorry about that.

Thanks,

David
